

# How to obtain the list of sales units registered via API?

URL: [http://www.nomedoseusite.com.br/api\\_products\\_others.php?action=uv](http://www.nomedoseusite.com.br/api_products_others.php?action=uv)

## Header Parameter

Usuariol

Senha1

## Format

base64\_encode()

base64\_encode()

## PHP Sample:

```
// sample uv list

$url = $domain_url . '/api_products_others.php?action=uv';

$ch = curl_init($url);
curl_setopt($ch, CURLOPT_RETURNTRANSFER, true);
curl_setopt($ch, CURLOPT_SSL_VERIFYPEER, false);

curl_setopt($ch, CURLOPT_HTTPHEADER, array(

    'Content-Type: application/json',
    "Cache-Control: no-cache",
    'Usuariol: ' . base64_encode($usuariol),
    'Senha1: ' . base64_encode($senha1))

);

$result = curl_exec($ch);
curl_close($ch);

print_r($result);

// sample uv list eof
```

## Return:

id  
text
