

# How to Create an Additional Domain

To create an additional domain:

1. Go to the control panel and click on the "Additional Domains" option.

2. In the following screen enter in the fields as below:

Domain: yourdomain.com

Username: user

Password:

Password (Repeat): Repeat the password you have chosen

After completing the fields correctly click on "Add Domain".

Note: Additional Domain will only work if registered and configured to point to hpHost! DNS servers.

DNS Servers MFORMULA:

Master: ns1.yourdomain.com

Slave1: ns2.yourdomain.com

Unique solution ID: #2149

Author: MFORMULA
