

# **Erro 509 - Bandwidth Limit Exceeded**

The message "Bandwidth Limit Exceeded" informs you that your account has exceeded the monthly traffic limit of the hosting.

If you are a shared hosting customer, please contact our business team to move your account to a higher level. If you have a reseller hosting, simply access the WHM-based control panel in the "Edit Plan" option and increase the hosting traffic you have set for your client.

Unique solution ID: #2171
