

# How to generate product feed and import to ebay?

First step: you need to have a seller account on ebay

Consult directly with ebay the conditions to import the product feed in XML format.

01) Access the Control Panel

02) After login click on Store Feeds

03) On the ebay line click New File

04) Fill in the form and select the products, after clicking Confirm

05) Click XML to download the file.

Note:

If you want to add a crontab for daily or weekly update you can use the parameters as shown in the ebay line

To import go to: <https://www.mip.ebay.com/settings/channelmanagement>
