Bling

How to set up automatic update of multiple products in the Bling of the last updated products?

01) Access the Control Panel

02) After login click Configuration >> Bling

Select Enable Bling Auto Products Update

Change to true and click the UPDATE button

- - - -

Select Bling Number of Auto Products Update

Set the total amount of products to be updated at a time, maximum recommended of 100 not to overload your server and Bling

- - - -

Select Bling Last Days of Auto Products Update

Set the days of the latest updated products

Example: 5

Refers to products updated from the last 5 days

- - - -

Access the Control Panel >> Catalog >> Bling

Click Automatically Update Multiple Products to process updates for multiple products at once

You can configure a crontab for the link so that this process is automatic
