Tiny ERP

How to configure automatic update of several products in Tiny ERP of the last updated products?

01) Access the Control Panel

02) After login click on Configuration >> Tiny ERP

Select Enable Tiny ERP Auto Products Update

Change to true and click the UPDATE button

- - - -

Select Tiny ERP Number of Auto Products Update

Set the total amount of products to be updated at once, recommended maximum of 100 not to overload your server and Tiny ERP

- - - -

Select Tiny ERP Last Days of Auto Products Update

Set the days of the latest updated products

Example: 5

Refers to products updated from the last 5 days

- - - -

Access the Control Panel >> Catalog >> Tiny ERP

Click Automatically Update Multiple Products to process updates for multiple products at once

You can configure a crontab for the link so that this process is automatic
