# Products

Filename must manually upload the images and full url is automatically captured the image file and saved on the server.

Recommended size:

400x400 pixels ~ 800x800 pixels / File format: JPG /

Correct Example:

nome\_do\_arquivo\_copia.jp

g Wrong Example: File

Name Cópia.jpg (Do not

use special characters,

space, semicolon at the

images of the file name)

Format: text

Picture of the full size

product. Filename (Exempl

e: nomedaimagem.jpg) or

full url (Example: <http://www.nomedosite.com.br/imagens/nomedaimagem.jpg>).

Filename must manually upload the images and full url is automatically

captured the image file and saved on the server.

Recommended size:

400x400 pixels ~ 800x800

pixels / File format: JPG /

Correct Example:

nome\_do\_arquivo\_copia.jp

g Wrong Example: File

Name Cópia.jpg (Do not

use special characters,

space, semicolon at the

images of the file name)

Format: text

Example: 1542.56 (Do not

use , "comma" only .

"point" to indicate

decimals)

Format: decimal(15,4)

\* FIELD REQUIRED

Product availability date

(Example: 2025-05-28)

Enter exactly as example

Format: datetime

Example: 0.150 (0.150 =

JSON

products\_weight

JSON

# Products

150 grams / Fill only with numbers and point)

Format: decimal(5,2)

\* FIELD REQUIRED

Name of supplier or manufacturer of the product

Example: Apple

Product portion (Ex: 1)

(Legend: 1 = View Parcel or 0 = No See Portion)

Enter exactly as example

Format: tinyint(1)

Stock status of the product (Ex: 0) (Legend: 1 =

Immediate Delivery, 1 = Exhausted, 2 = Available in \_\_ days or 3 = POA)

Enter exactly as example

Format: tinyint(1)

When you enter option 2 in products\_stock\_status,

enter the number of days (Example: 30) (Subtitle: 30

= 30 days). Type exactly as example

Format: varchar(64)

Product sales unit

Example: 1 piece

View the price of the product (Example: 0)

(Legend: 1 = No, client contacts for information or

0 = Yes) Enter exactly as example

Format: tinyint(1)

Free shipping product

(Example: 0) (Caption: 0 = No or 1 = Yes) Enter

exactly as example

Format: tinyint(1)

NCM product (Example: 2)

Enter exactly as example.

Check the API to get the list of ncm.

Format: int(11)

CFOP product (Example: 2)

Enter exactly as

example. Check the API to
