

Fragrancenet

How to Import by API File Frangrancenet.com New Products or Upgrade / Synchronization of Large-Scale Product Inventory

01) Create your Frangrancenet.com account as a Merchant or Partner, for more information, visit: <http://www.frangrancenet.com/help/wholesale>

Get the link in txt format from the product catalog

02) After accessing the Control Panel

03) After login click on Catalog> Import and Update Product Feeds

04) Click Insert, fill in the fields:

Feed Name: Frangrancenet

Vendor: Frangrancenet (Add new case not listed)

URL or File: URL

URL: Fill in the field with the feed URL

User: Fill in the field with the user provided by Frangrancenet

Password: Fill in the field with the password provided by Frangrancenet

Percentage to increase in price: Set the percentage of profit on the wholesale product price of Frangrancenet

Currency of the Feed: US Dollar - USD

Status: Active

Status of Products on Import: Active

05) After clicking the Insert button

06) After accessing Control Panel >> Configuration >> Feed Products

Currency Dollar to Real: If your store currency is BRL and the Feed Currency is USD, it is important to fill in the feed currency conversion amount

Shipping Price USD Frangrancenet: If frangrancenet charges freight approximately 45.00, fill in this field for freight calculation

Percentage charge from payment company: If you are using a credit card company enter for example 12, it will be the percentage for calculation in the conversion of prices of the products

Fragrancenet

07) To import the products and synchronize the stock click on the Load Feed link (Recommended click once not to overload the server, if you overload the server your account is subject to suspension or blocking, it is recommended to hire a dedicated server, vps or cloud). To update stock, click the Load Feed link. Update the stock once a week or once a day at less access times, between 10pm and 6am.

08) The products will be imported for each Category specified by Fragrancenet.
