Places

How to enable / disable automatic currency update?

01) Access the Control Panel

02) After login click Settings >> Currency Settings

On line Status to update automatically the currency >> options >> edit: true = active or false = deactivates

On the line milliseconds to refresh and update automatically the currency >> options >> edit: set the time for it to be updated automatically

In the line Tax percentage to add in the price get from api >> options >> edit: set the additional rate to be added to the conversion price. Example: 1.1 or 5. Refers to the IOF rate.

In the KEY KEY line currencylayer.com >> options >> edit: set the KEY API to access the API of currencylayer.com. For more information please contact currencylayer.com

On the Choose the API line to refresh and update automatically the currency >> options >> edit: choose an API to be able to automatically update currencies

03) After changing click the UPDATE button
