Wish

How to configure Wish API integration?

Go to https://merchant.wish.com/

Step 1: Create a merchant account

Step 2: After obtaining Client Id, Client Secret and Redirect URI under Account >> Settings >> API.

In the Field Redirect URI fill in:
If you use http, use your domain: http://www.yourdomain.com/wish_redirecturi.php
If https get the https link of your domain by clicking on login in your store:
https://server.mformula.com.br/~youraccount/wish_redirecturi.php

Step 3: Go to Settings >> Wish

Edit the Client Id, Client Secret, and Redirect URI fields

Step 4: After accessing:

If you use http, use your domain: http://www.yourdomain.com/wish_redirecturi.php
If https get the https link of your domain by clicking on login in your store:
https://server.mformula.com.br/~youraccount/wish_redirecturi.php

Connect your virtual store account with your Wish account.
