

Hiper

Import via API Hiper Novos Produtos or Update/Large-Scale Product Stock Synchronization

01) Create your account on Hiper, for more information, visit:
<http://www.hiper.com.br/>

Copy the Security Key

02) Then access the Control Panel

03) After logging in, click on Catalog > Import and Update Product Feeds

04) Click on Insert, fill in the fields:
Feed Name: Hyper

Supplier: Hiper (Add new if not on the list)

URL or File: URL or File

User: Enter or paste the Security Key

Password:

Percentage to increase in price: Set the profit percentage on the wholesale product price in SquidFacil

Feed Currency: Brazilian Real - BRL

Status: Active

Do not import products from feed categories: If you are not interested in selling or importing products from a specific category, fill in this field, as per the example described on the page

Import Status of Products: Active

05) After clicking the Insert button

06) To import products and synchronize stock, click the Upload Feed or Manually Select Products to Import link. To import only products with immediate shipping, click the Upload Feed button Only products with immediate shipping.
(Recommended to click once to avoid overloading the server, if you overload the server your account is subject to suspension or blocking, it is recommended to hire a dedicated server, vps or cloud). To update stock, click the Upload Feed link.
Update stock once a week or once a day at times of less access, between 10pm and 6am.
