How to set up free shipping?

01) Access the Control Panel

02) After login follow the instructions:

Free Shipping achieves a certain Total Purchase Value

- Click Modules >> Orders >> Shipping >> Click on the EDIT button

- Change Allow Free Shipping to TRUE

- Determine the Amount to Free Free Shipping in the Free Shipping For Orders Over field

- Determine the Free Shipping region in the Provide Free Shipping For Orders Made Field

National = Country of the virtual store

International = Out of country

Both = For Country and Outside Country

- If you choose the national option you can choose the states with Free Shipping in the Region States field, only works with the national option

- After clicking the UPDATE button

Free Shipping by Product

- Click Configuration >> Shipping / Packaging

- Determine the Free Shipping region in the Free Shipping field to each product for all countries?

National = Country of the virtual store

International = Out of country

Both = For Country and Outside Country

- If you choose the national option you can choose the states with Free Shipping in the field Free Shipping to each product for each state, only work with national option, only works with the national option

- After clicking the UPDATE button

Settings

- After Enter / Edit a Catalog Product in the form will have the Free Shipping Yes or No field

Free Shipping by Categories

- Click on Modules >> Shipping >> Free Shipping >> After clicking the INSTALL or EDIT button

- After clicking the UPDATE button
